The State of Texas,

County of San Augustine. To the Commissioners Court of San Augustine County
Texas.

Whereas at the February term of the Commissioners Court an order was passed that the boundary line between San Augustine and Sabine Counties should be run by Jas. A. McLauren, County Surveyor of San Augustine County, beginning at the N.E. Cor. of San Augustine Co. and continuing South as far as the two counties adjoin. The order says that the work of locating said boundary line shall begin on the 27th day of May 1912. But suit the convenience of the Sabine County Surveyor and by verbal consent of the Court, the time was postponed until June 19th, 1912. On the 19th day of June 1912, I met the surveyor from Sabine County, Mr. J.C. Barker at the N.E. cor of San Augustine County, the point designated to begin to work, and from that point we proceeded to run said line just as it is given in the field notes of San Augustine County, as given in Batt's Civil Statutes of Texas, in Vol. 1, page 417. We measured the line carefully, and set rich pine post at the ends of each mile and at the corners. The posts were 6 feet long and not less than 8 in diameter. We set the posts 3 ft. in the ground and raised a mound of earth around each post.

We herewith attach the field notes of said boundary and make them a part of this report. Beginning at the N.E. Cor. of San Augustine County, it being the N.W.
