The Jail Inspector, Bob Dearing met with the court. He stated the Jail was due for an inspection on February 13th. In order for the Jail to pass inspection or to be certified the following things would need to be done.

1. Electrical lock on the Second door that goes to the back.
2. Fence on Port needs to be covered or slatted to close out the view.
3. Locks on gates at the fence. Need to be Jail detention locks not pad locks. (Suggested that one be an Electronic lock.

The Court was also concerned about the Sub Contractors who have not been paid, and also the crack in the wall. If and when the Jail is certified could this effect the Construction Co. in payment of the Subcontractors or to release them from repairing the wall. Mr. Dearing spoke of a Years Warranty on the jail and also that he would mention the crack in the wall in his report.

There being no further business, the court adjourned.
