RESULTS OF A SURVEY OF TEXAS MICROGRAPHICS' REFERENCES

I spent Monday July 15, 1991, in Judge Smith's office calling six of the references provided to the County by Texas Micrographics. They have proposed a computer based system for use in the offices of the District and County Clerk and the County Judge.

I will not detail the extent of each conversation; I will only summarize the important points. In general, I talked to either a deputy in the County Clerk's office or to the Clerk herself. In several of the counties surveyed, the District and County Clerk were one in the same. All respondents were pleased with the system and believed that it made their job easier and allowed them to work more efficiently. None of the seven people I talked with had any previous computer experience. All were trained by Texas Micrographics. Several even said that they were afraid of the computer when they first were approached with the idea of using it in every day operations.

The size of the counties surveyed ranged from 2500 to 22000 people. The number of staff using the computer and its software were as few as one and as many as seven.

The following problems were noted:

1. The recommended printer was too slow. Two/minutes per page was not fast enough to generate the necessary documents in a timely fashion.
2. The training program for the computer and its software was adequate, but several counties felt that there should be more "hands-on" training by Texas Micrographics.
3. The record recording system, or microfiche, was adequate, but more training on its operation would have been most useful.

Other comments are of interest:

1. One county had entered 6000 birth and 4000 marriage records since 1/1/91
2. A commercially available "Menu-Maker" has helped with user understanding.
3. A complete back-up of all data to date is done every day in Medina County. It takes 7 minutes.
4. All of the people I talked with stated that the service and support of Texas Micrographics was

281  
excellent.

5. One District Clerk said that the Child Support System was the best and most helpful feature of the software. It permitted her to do her job much more efficiently.

Finally, everybody I talked to was enthusiastic about this system now and felt that their county was ready for the future. One other item; all the women I talked with suggested that our new computer users call them for consolation and assurance.

Honorable Commissioners Court  
State of Texas  
County of Sabine  
Hemphill, Texas 75948

Gentlemen:

The residents and property owners of the Lake Sam Rayburn Estates respectfully request that the roads within our addition be adopted by the county of Sabine as public roads.

Since we have applied to the department of commerce for a block grant to have the roads paved, and approved by the Commissioners Court, we ask that they accept them now.

For the past twenty years we have tried to maintain these roads to the best of our ability and have donated and expended over five thousand dollars (\$5000.<sup>00</sup>) for rock, iron ore, and sand to put on these roads, one of which is already a county owner road.

Respectfully,

**MEMORANDUM**

**TO:** Certain County Officials

**SUBJECT:** V. G. Young Institute of County Government Certificates

We are pleased to award you the enclosed certificate/s showing your successful completion of the referenced conference or seminar sponsored by the Institute in cooperation with your professional association. You should be proud of your completion of this continuing education program. We suggest that you have the certificate framed. If you choose not to frame it, we have found it a good public relations effect to display such awards of merit in your offices for your fellow officials and constituents/taxpayers to see.

Your name is printed as you indicated on the pre-registration form. We have tried very carefully to make sure that your name is properly spelled. We process about 5,000 such certificates annually and a few misspellings may slip past us. If you will let us know if your name is misspelled we will gladly have your certificate/s remade.

Please note that every person who pays the registration fee is presumed to have attended all of the conference meetings and is awarded the V. G. Young Institute of County Government certificate. The statement on the certificate that the person shown "successfully completed" the conference is neither legal nor official certification. The official certificate is the certificate from the Office of Continuing Education at Texas A&M University and reflects the elected official's affidavit of the number of hours actually claimed and earned.
