Agenda item #1 - Public Hearing to Discuss & Possible Take Action on / On-Site Sewage Facility Order

Jerry Johnson is the designated inspector of sewage systems for the County. He told the Court that the order has been reviewed by the TNRCC in Austin and meets their approval. It meets the minimum requirements of the State. We are required to ask for any public comments of anyone present at the public hearing today. Then the Court can adopt the order.

Judge Leath asked if anyone present wanted to comment on the agenda item. There was no reply.

Judge Leath said he has a letter from Kenneth Draper with TNRCC indicating that the order does meet the minimum requirements and that they have no objections. He said the Water Development Board notified him that in order for us to retain any EDAP programs, we must adopt the updated version of the model subdivision rules set up by the State and update ours by December 31, 2000. We have to have a public hearing on that also.

Commissioner Nethery moved to adopt the rules as outlined. Commissioner Smith seconded. All voted for. Motion carried.

Judge Leath adjourned the public hearing.
