High Speed Internet 500 Mbps	\$46	500 Mbps	Unlimited	View Plan
Kinetic Gig	\$56	1000 Mbps	Unlimited	View Plan

Windstream offers low-income internet for as little as \$10 per month

We've tracked down another cable TV company that's offering an affordable internet plan to low-income Americans. It's called Kinetic and it's offered by Windstream Communications.

Of course, the offer is only good for low-income Americans who reside in areas in the 18 states where Windstream offers residential service. That includes Alabama, Arkansas, Florida, Georgia, Iowa, Kentucky, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina and Texas.

Windstream offers new customers a special promo price of just \$19.99 for the first year. But you won't actually pay that much because Windstream applies a \$9.95 Lifeline per month discount to that price so you end up paying a mere \$10.04 per month for twelve months. After that first year, you'll automatically move to the High Speed Internet 25 Mbps plan shown below. So your ongoing monthly price will be \$17.75 (the price of the plan minus that monthly discount).

Lifeline is a federal program that helps low-income lower their monthly cost of phone or internet service. It's best known for its free government cell plan, but also subsidizes low-income internet plans like Windstream's. But please keep in mind that your monthly Lifeline discount can be applied to a free government cell phone plan or low-income internet service. But it can only be used for one or the other, not both.

Residents of Texas

Texans are quick to tell you that there's no place like the Lone Star State. That's especially true when it comes to applying for the Kinetic Low-Income Internet program. Here's how to apply in Texas:

Please visit <https://www.puc.texas.gov/consumer/lowincome/Assistance.aspx> to apply for Lifeline through the Public Utility Commission of Texas. On this website there are detailed instructions on how to apply for Lifeline as a Texas resident. Once you are approved, the state of Texas will notify Windstream and our Lifeline team will add Lifeline credits to your Windstream account.

Connected Nation Texas is a statewide initiative funded through the Texas Rural Funders Collaborative to support all Texans in leveraging broadband.

- County Boundary
- Municipal Boundary
- Federal Land
- Water
- Local Road

Fixed, Terrestrial Non-Mobile Internet Service

- Detailed Service Areas
- FCC Service Availability

Broadband data displayed on this map are developed from a combination of direct provider outreach and data collection, FCC Form 477 broadband deployment filings, and independent research conducted by Connected Nation Texas. If a broadband provider was unwilling or unable to supply granular data and a detailed service area could not be developed, the provider's service availability is represented by FCC Form 477 data, a format which tends to be overestimated.

This map is not a guarantee of Internet service availability. Mobile and satellite services may also be available.

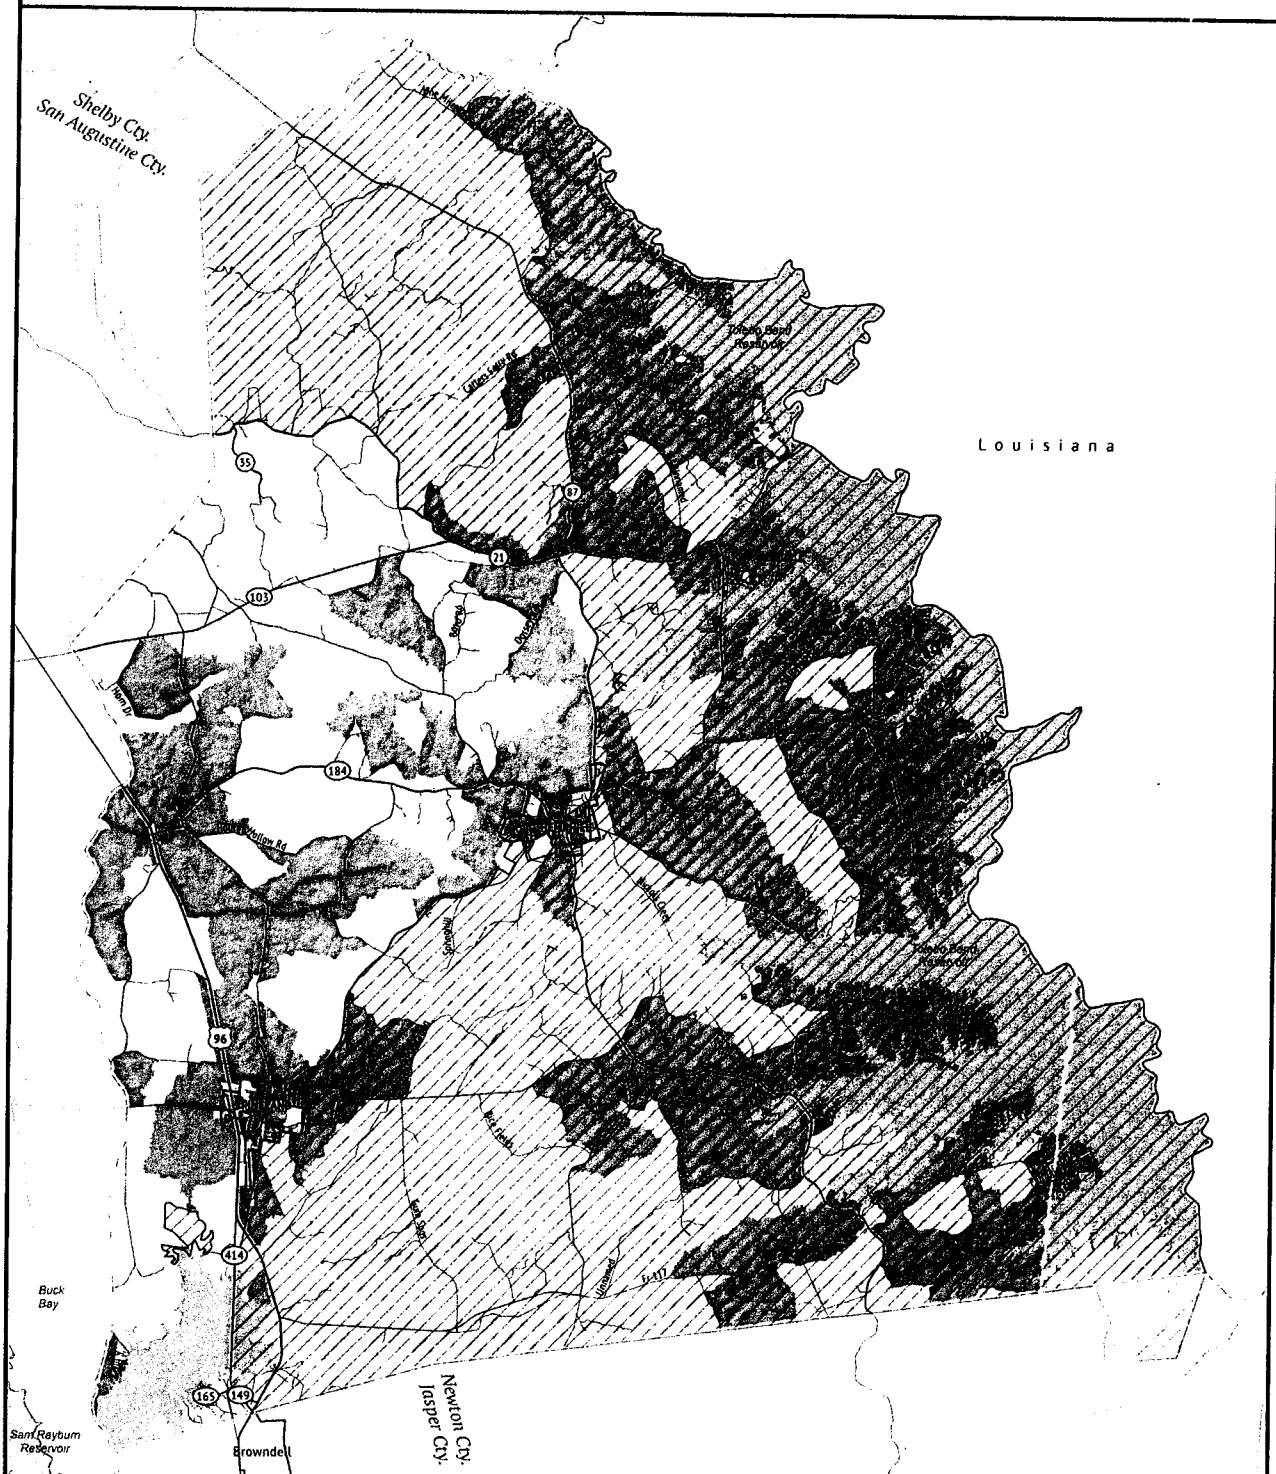

The current FCC definition of broadband is a minimum speed of 25 Mbps (Megabits per second) download and 3 Mbps upload.

Please submit feedback regarding any possible mapping inaccuracies at <https://connectednation.org/texas/feedback>. Updates to this map will occur in July 2020.
