File Code: 7100

Date: December 14, 2021

Honorable Daryl Melton
201 Main Street
P.O. Box 716
Hemphill, Texas 75948

Judge Melton,

I have researched the road we have discussed in previous conversations. The road is National Forest Service Road 1301 and falls under the Forest Service's ownership. Our records indicate, the road begins where it deviates from the Sabine County Road named Scrappin' Valley. The total length of the road is 2 tenths (0.2) of a mile and consists of a natural surface type.

Thank you for inquiry about the road ownership and expressing interest in adding this road to the existing Cooperative Agreement.

When the County acts on adding this road to the Cooperative Agreement, will you please provide documentation of the action taken. This documentation will be filed with the current agreement and will be available during the next iteration of updating and extending the Cooperative Agreement in 2025.

Once I receive this documentation, I will draft a letter that will require your signature and the Forest Supervisor's signature. This will finalize adding NFSR 1301 to our existing agreement.

If you have questions please contact Don Eddings at (409)625-1940, or via email don.eddings@usda.gov.

Sincerely,

DANIEL L. GALLANT
Acting District Ranger
