Vol 4-A Page 801

-
- 2) Responsibilities of Engineer and Architect (Does not "supervise" the contractor's employees, equipment or operations).

The Engineer is the Owner's Representative. He does not direct construction operations. Construction services will include review of equipment and material submittals, answer construction questions, review change order and pay estimate requests. The Engineer will perform periodic observation of construction for compliance with project plans and specifications.

- 3) Responsibilities of Owner's Governing Body: (Actual Contracting Organization)

Issue communications on matters impacting the contract through the Engineer. Responsible for project funding and payment of approved payment requests. The Owner and City/County do not direct contractor operations.

- 4) Responsibilities of Contractor: (Review contract terms.)

Maintain insurance as required for the duration of the contract period. Contractor is responsible for construction of the project in accordance with approved plans and specifications. Contractor shall provide supervision and direction of the work, project safety and scheduling. The Contractor shall maintain **UP-TO-DATE RECORD DRAWINGS** and progress schedule. Contractor shall be responsible for testing, retesting, and will provide notification (24 hour minimum) in advance of any construction testing required. Locate/verify existing tie-in points prior to commencing construction. Contractor is to coordinate work with City/County personnel. Work in areas outside of the Owner's property requires the Contractor to obtain permission from the landowner(s)

- 5) Responsibilities of Any Other Agency Contributing to the Project:

Grant Conditions—Refer to Documents/Information provided by the Grant Administrator.

- 6) General Discussion of Contract:

- A. Alternative Specifications: (Does everyone understand the alternatives applicable to the contract as awarded?)

Refer to Notice of Award in documents.

- B. Initiating Construction: (Notice to Proceed).

A Notice to Proceed is anticipated to be issued at the conclusion of this meeting.

- C. Completion Time for Contract: (Does everyone understand contract requirements and methods of Computing?)

The contract period is as follows:

Three hundred (300) consecutive calendar days

- D. Liquidated Damages:

Liquidated damages of \$300.00/consecutive calendar day may be charged for the over-runs not documented by an approved extension.

Vol 4-A Page 802

E. Requests for Extension of Contract Time:

Requests for extensions should be made in writing as soon as the extent of the delay can be defined. Requests should be accompanied by documentation to show the delay was unavoidable.

F. Procedures for Making Partial Payments:

Pay requests should be reviewed with the Engineer prior to official submittal. An emailed copy is acceptable. The cutoff day should be the same on each request except the final request may be cutoff whenever the project completion certificate is dated.

G. Guarantee on Completed Work: (Materials, Installed Equipment, Workmanship, Etc.)

Warranties on completed work shall be one year from the date of execution of the completion certificate for the project.

H. Other Requirements of the Contract and Specifications which Deserve Special Discussions by All Parties:

N/A

7) Contractor's Schedule:

A. Develop Work Schedule in Sufficient Detail to Enable the Engineer to analyze Contractor's Operations: (Consideration must be given to needs of the Owner and their planned operations.) Contractor is to provide work schedule to Engineer prior to commencing work.

B. Equipment to be Used by Contractor:

Shall be sufficient to perform the work. Safety equipment shall meet OSHA requirements and shall be used. Safety equipment, warning signs or barricades shall be sufficient to protect the public.

C. Contractor's Plan for Delivering Materials to Project Site: (Protection and Storage of Materials.)

Materials shall be stored at locations acceptable to the Owner.

8) Subcontracts: (Review and approval of approved Subcontractors and their work schedules.)

<u>Firm/Construction Item</u>	<u>Contact Person</u>	<u>Phone</u>
-------------------------------	-----------------------	--------------

9) Status of Materials Furnished by the Owner:

A. Schedule for Future Deliveries:

N/A

Vol 4-A Page 803

B. Procedures to be adopted by contractor in accounting for and storing such materials:

N/A

- 10) Change Orders: (Detailed exploration of procedure to be followed and clearance which must be obtained before changes are implemented.)

No major modification or time extension will be made without approved change order. Request change order with justification in writing to the Engineer.

- 11) Staking of Work:

Contractor is responsible for construction layout.

- 12) Project Inspection:

- A. Functions of the Engineer, including Records and Reports:

Periodic inspection and pay estimate review. Engineer should be contacted in advance of any major equipment settings or concrete pours. A written field report will be generated.

- B. Responsibilities of Owner:

The Owner may elect to perform a daily review of construction (at their discretion).

- C. Safety Regulations:

The Contractor is responsible for incorporating OSHA Safety Standards in construction of the project. Temporary barricades/warning signs shall be in accordance with TxDOT standards.

- 13) Final Acceptance of Work: (Include requirements for tests and clean-up of project site.)

Testing of completed work shall be in accordance with project specifications. All areas of the work shall be returned to original condition. Photographs are not mandatory but can be beneficial in documenting prior condition.

- 14) Labor Requirements:

- A. Equal Employment Opportunity Requirements:

In accordance with Federal requirements (if applicable).

- B. Davis-Bacon Acts:

In accordance with Federal requirements (if applicable).

- C. Federal, State and Other Requirements:

In accordance with conditions of the contract.

- D. Reports Required:

Vol 4-A Page 804

In accordance with conditions of the contract.

15) Equal Employment Provisions of Contract:

In accordance with conditions of the contract.

16) Rights-of-Way and Easements:

A. Explain any Portion of Project not available to Contractor:

N/A

B. Contractors Responsibilities During Work Covered by Contract:

Maintain access for Property Owner for continuous operation of existing facilities during construction. Store materials or equipment so that roads or drives are not blocked and public safety is not threatened.

C. Coordination with Railroads, highway departments and other organizations:

N/A

17) Placement of Project Signs and Posters:

Per Contract Conditions

18) Handling Disputes:

1. Meeting between Owner, Contractor and Engineer.
 2. Arbitration procedures in contract documents.
