* Personal loans made through Upgrade feature Annual Percentage Rates (APRs) of 8.49%-35.99%. All personal loans have a 1.85% to 9.99% origination fee, which is deducted from the loan proceeds. Lowest rates require Autopay and paying off a portion of existing debt directly. Loans feature repayment terms of 24 to 84 months. For example, if you receive a \$10,000 loan with a 36-month term and a 17.59% APR (which includes a 13.94% yearly interest rate and a 5% one-time origination fee), you would receive \$9,500 in your account and would have a required monthly payment of \$341.48. Over the life of the loan, your payments would total \$12,293.46. The APR on your loan may be higher or lower and your loan offers may not have multiple term lengths available. Actual rate depends on credit score, credit usage history, loan term, and other factors. Late payments or subsequent charges and fees may increase the cost of your fixed rate loan. There is no fee or penalty for repaying a loan early. *Approval not guaranteed. Your loan terms will be determined based on your credit, income, and certain other information provided in your loan application. Not all applicants will qualify for the full amount.

Loan services offered through Credit Karma Offers, Inc. NMLS ID# 1628077 | [Licenses](#) | [NMLS Consumer Access](#). California Loans arranged pursuant to a California Financing Law License.

Effortless Installation and Maintenance

The installation process is streamlined and straightforward, designed to be as non-invasive as possible. The generator's external connection box and flexible fuel line make it easy for installers to connect to your existing fuel and electrical systems. Once installed, maintenance is minimal, thanks to the generator's self-test mode that runs a weekly diagnostic check to ensure everything is functioning correctly.

Warranty and Support

Generac's commitment to quality is backed by a robust warranty and a nationwide network of authorized service providers. The **Generac XG03245** comes with a 5-year limited warranty, covering parts and labor for the first two years and parts for the remaining three, ensuring that your investment is protected.

PRODUCT OVERVIEW

The Generac 32 kW Generator adds well-known features to new improvements with the Protector XG series. The 32kW XG03245 has a 4.5 Liter engine that runs at 1800 RPM under load and 1200 RPM during exercise or low idle. A New Power Zone 410 Controller brings the latest in technology with additional functionality and more features than ever before, including the ability to select the fuel type at the controller without any other modifications. This controller is NFPA 110 capable.

Authorized Dealer

- ✓ 5 year factory warranty
- ✓ Brand new in box
- ✓ Ships directly from Generac out of WI
- ✓ Authorized Generac dealer
- ✓ Natural Gas or Liquid Propane Powered

Not for sale in California or Massachusetts

FEATURES

- Quiet-Test™ Self-Test Mode: Runs at a lower, quieter RPM for a five-minute test, to ensure the system is running properly while consuming less fuel. It can be programmed to run weekly, biweekly, or monthly.
- TruePower™ Technology: Delivers best-in-class power quality with less than 5% total harmonic distortion for clean, smooth operation of sensitive electronics and appliances.
- Controller Selectable Fuel: Fuel type selection using only the controller simplifies generator installation.
- Generac Designed & Built Engine: Purpose-built exclusively for generator use. Utilizes the first in class, dual-valve ultra-low pressure fuel delivery system and intelligent proprietary engine controls that manage over 100 performance functions to ensure peak efficiency in all temperature ranges and elevations.
- Cellular Connectivity: Reliable, constant connection enables the Generator Owner to monitor function through Mobile Link and the supporting Dealer through Fleet.
- Small Footprint: Generac liquid-cooled product packs more power into a small footprint – ideal when space is a premium. The neutral styling, color and small footprint fits unobtrusively into landscaping.
- Corrosion Resistant Enclosure & Frame: Aluminum enclosure, zinc plated fasteners, and electro-galvanized frame rails with powder coat provide years of corrosion protection in extreme environments.
- Built in the USA*: Generac generators and engines are engineered and built in the USA* *Assembled in the USA using domestic and foreign parts.
- Surge Capacity: Designed to start and power large electrical loads for homes and businesses.
