City of Pineland Notice: New 911 Addressing Initiative

The Pineland City Council and the Sabine County 911 Coordinator are working together to implement a new 911 addressing system throughout the City of Pineland. This project will improve address accuracy for emergency responders, postal and delivery services, utility providers, and the public.

As the new addresses are assigned, some residents and businesses may receive a change to their current physical address. Property owners affected by these changes will be notified and provided with information regarding their new address and any recommended next steps, such as updating mailing information, driver's licenses, insurance policies, banking records, and other important accounts.

The City appreciates the patience and cooperation of our residents as this important public safety project is moving forward. While address changes may require some adjustments, the new 911 addressing system will help ensure faster and more accurate emergency responses and provide a consistent address system for our growing community.

If you have any questions or concerns, please feel free to reach out to Pineland City Hall at (409)584-2390 or visit us in person at 110 Timberland Hwy.

VOL 4-H PG 516

Joseph Lane – Mayor
DeWayne Armstrong – City Administrator

Sheena Moody – City Secretary
Kenny Isaacks – Chief of Police
