Re: Getting Bridge 4 Public Safety added to Commissioners Court

The SCSO would like to add to the courts discussion on allowing the SCSO to enter into a contract with Bridge 4 Public Safety. This system will allow the SCSO to communicate with each other and other agencies via a secure texting app. The quote for this service is approx. \$100 each user the SCSO would have approx. 15 users. The SCSO realizes that it did not account for this system in the budget for 2027 proposal. The SCSO can pay for the first year of service out of its forfeiture funds.

Thank You
